# Cisco

Kosmos Technology A/S specializes in new and refurbished Cisco and is your number one alternative to the existing channel.

Whether you are looking for complete systems, spare parts, upgrades, licenses or EOL equipment, we are ready to serve you.

Based on a detailed market knowledge and our relationship with a global network of suppliers, we are always able to buy in high volume and then pass the savings onto you. This way we can always guarantee that you will get 100% genuine, quality hardware and upgrades at the best prices available on the IT market.

## Cisco Certified Refurbished Equipment

We supply Cisco Certified Refurbished Equipment, which offers all the same benefits as new Cisco, but with even deeper discounts.

## Trade-in & Buy-back

Kosmos Technology A/S can also help you make room for new investment, by purchasing your replaced Cisco equipment that you no longer need.

## Our portfolio includes:

- Current product range
- Entire EOL catalogue
- Spare parts
- New, Used/Refurbished and Demo hardware

## Choose Kosmos Technology A/S because:

We know that excellent service and customer satisfaction is the foundation of any successful, long-term business relationship, so you can always count on us to make you our top priority!

Secondly, we listen to what you need in order to supply the right product, at the right time and the right price.

## Product range

- Application Networking Services
- Network Management
- Optical Networking
- Routers
- Security & VPN
- Server Networking & Virtualization
- Storage Networking
